

ROCKTON SOFTWARE ACQUIRES OMNI TOOLS AND OMNI PRICE

15-Aug-2006: After long consideration and much deliberation, Winthrop Dexterity Consultants is leaving the Great Plains community. Effective immediately Rockton Software will be selling, supporting and developing Omni Tools and Omni Price.

You may already be familiar with Rockton Software and the award-winning suite of Dynamics GP enhancements offered by them. Indeed you may have a reseller agreement with them in place already. Please contact them on sales@rocktonsoftware.com or support@rocktonsoftware.com to order the Omni products and for support enquiries. For more information, visit www.rocktonsoftware.com.

At Winthrop we are confident that Rockton will provide exemplary service and support. We have had a long relationship with them and their development work is of the highest quality.

Thank you very much for your past support and business. I wish you a prosperous and productive partnership with the team at Rockton.

Yours sincerely

Jennifer Musgrave
